DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 8, 11, 13, and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakamura et al. in view of Takahashi et al.

Nakamura discloses a polishing device comprising a table (30).

Nakamura does not disclose a traction drive type reduction gear.

Takahashi discloses a traction drive type reduction gear (see figure 2) in a transmission for the purpose reducing speed.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified Nakamura to include the traction drive type reduction gear as taught by Takahashi for the purpose reducing speed.

Allowable Subject Matter

3. Claims 9, 10, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
